Programming Languages: C, Java, Python, Data Structures
Web Technologies: HTML, CSS, JavaScript
Databases: SQL
Tools and Software: Visual Studio Code, MS Word, MS Excel
Soft Skills Adaptability, Time Management, Team Player, Critical Thinking, Communication Skills

Certifications

- Cloud Virtual Internship — Eduskills

- Data Engineering Virtual Internship — Eduskills

- HTML5 and CSS Fundamentals — edX

- Step Plus Test — Scored 8.0

- Introduction to SQL — edX

- Python — Infosys Springboard

- Front-End Web Developer Certification — Infosys Springboard

Projects

Medical Website
Developed a responsive and user-friendly medical website that allows users to browse doctors, book appointments, and access health-related information online.

- Built the frontend using HTML, CSS, and JavaScript for a seamless and interactive user experience.

- Implemented the backend in Java.

- Used MySQL to manage user data, doctor details, and appointment records.

- Developed and managed the project using Visual Studio Code.

Achievements & Awards

- Certified by NPTEL in "Introduction to Internet of Things"
- Certified in Cloud Computing
- Certified by Eduskills and Infosys Springboard across multiple technology courses

Courses & Internships

- Short Term Internship – JNCIAA (Junos, Associate)

Declaration

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
